Art of Pro-life Persuasion
This lays a basic foundation for the pro-life position by equipping students to answer two crucial questions:
1. What is the preborn?
2. What makes humans valuable?
Using science & philosophy, students are taught to articulate the case for life in a winsome and compelling manner.

WVRTL Mission: We seek to protect the right to life, especially of unborn children, through positive education, compassionate advocacy, and promotion of healthy alternatives to abortion in the Wabash Valley.
